HYDROBIOLOGIA
Volumes 446/447, 15 March 2001

Theme
Rotifera IX

Proceedings of the IXth International Rotifer Symposium, held in Khon Kaen, Thailand, 16–23 January, 2000

Guest Editors
L. Sanoamuang, H. Segers, R. J. Shiel & R. D. Gulati

Preface xi

Photo and list of participants xii–xiii

Dedication
In memoriam: W.T. Edmondson (1916–2000)
R.L. Wallace, J.J. Gilbert, C.E. King xv–xxi

Thomas M. Frost in memoriam (1950–2000)
M. Gonzalez, J.J. Gilbert, C.E. Williamson xxiii–xxiv

Part I. Autecology and Population Ecology

Review paper
Dormancy patterns in rotifers
Claudia Ricci 1–11

Recipes for successful anhydrobiosis in bdelloid rotifers
Manuela Caprioli, Claudia Ricci 13–17

Spine development in *Brachionus quadridentatus* from an Australian billabong: genetic variation and induction by *Asplanchna*
John J. Gilbert 19–28

The relationship between *Trichocerca pusilla* (Jennings), *Aulacoseira* spp. and water temperature in Loch Leven, Scotland, U.K.
Linda May, A.E. Bailey-Watts, A. Kirika 29–34

Swimming speed and Reynolds numbers of eleven freshwater rotifer species
Gustavo Emilio Santos-Medrano, Roberto Rico-Martinez, César Alberto Velázquez-Rojas 35–38

Density-dependent regulation of natural and laboratory rotifer populations
Terry W. Snell, Brian J. Dingmann, Manuel Serra 39–44

Part II. Reproduction and Life History

Variability for mixis initiation in *Brachionus plicatilis*
Eduardo Aparici, Maria José Carmona, Manuel Serra 45–50

Parasites in rotifers from the Volga delta
Alexander K. Gorbunov, Anna A. Kosova 51–55

Use of microparticulate markers in examination of rotifer physiology: results and prospects
N. Lindemann, L. Discher, W. Kleinow 57–61

Population growth of *Lepadella patella* (O.F. Müller, 1786) at different algal (*Chlorella vulgaris*) densities and in association with *Philodina roseola* Ehrenberg, 1832
S. Nandini, S.S.S. Sarma 63–69

Egg size and offspring fitness in a bdelloid rotifer
Nadia Santo, Manuela Caprioli, Simona Orsenigo, Claudia Ricci 71–74

Life table demography and population growth of *Brachionus variabilis* Hempel, 1896 in relation to *Chlorella vulgaris* densities
S.S.S. Sarma, S. Nandini 75–83

Life cycle patterns of rotifers in Lake Peipsi
Taavi Virro 85–93

Life history characteristics of three types of females in *Brachionus calyciflorus* Pallas (Rotifera) fed different algae
Yi-Long Xi, Xiang-Fei Huang, Hong-Jun Jin 95–98

Why do rotifer populations present a typical sigmoid growth curve?
Tatsuki Yoshinaga, Atsushi Hagiwara, Katsumi Tsukamoto 99–105

Part III. Trophic Relations and Interspecific Interactions

Grazing by a dominant rotifer *Conochilus unicornis* Rousselet in a mountain lake: in situ measurements with synthetic microspheres
X. Armengol, L. Boronat, A. Camacho, W. A. Wurtsbaugh 107–114

Observations of insect predation on rotifers
Stephanie E. Hampton, John J. Gilbert 115–121

The effect of bacteria on interspecific relationships between the euryhaline rotifer *Brachionus rotundiformis* and the harpacticoid copepod *Tigriopus japonicus*
Min-Min Jung, Atsushi Hagiwara 123–127

Bed and Breakfast: the parasitic life of *Proales werneckii* (Ploimida: Proalidae) within the alga *Vaucheria* (Xanthophyceae: Vaucheriales)
Robert L. Wallace, Donald W. Ott, Sheri L. Stiles, Carla K. Oldham-Ott 129–137

Part IV. Ecosystem Ecology

Review paper
The ecology of periphytic rotifers
Ian C. Duggan 139–148

The psammic rotifer structure in three Lobelian Polish lakes differing in pH
Irena Bielańska-Grajner 149–153

Distribution of rotifers in North Island, New Zealand, and their potential use as bioindicators of lake trophic state
I.C. Duggan, J.D. Green, R.J. Shiel 155–164

Urban rotifers: structure and densities of rotifer communities in water bodies of the Poznań agglomeration area (western Poland)
Jolanta Ejsmont-Karabin, Natalia Kuczyńska-Kippen 165–171

Rotifer distributions in the coastal waters of the northeast Pacific Ocean
Steven C. Fradkin 173–177

Species diversity and dominance in the planktonic rotifer community of the Pripyat River in the Chernobyl region (1988–1996)
Galina A. Galkovskaya, Dmitry V. Molotkov 179–185

Variability and instability of planktonic rotifer associations in Lesotho, southern Africa
Jim Green 187–194

Diurnal vertical distribution of rotifers (Rotifera) in the *Chara* zone of Budzyńskie Lake, Poland
Natalia Kuczyńska-Kippen 195–201

Hatching from the sediment egg-bank, or aerial dispersing? – the use of mesocosms in assessing rotifer biodiversity
J.M. Langley, R.J. Shiel, D.L. Nielsen, J.D. Green 203–211

Increase of rotifer diversity after sewage diversion in the hypertrophic lagoon, Albufera of Valencia, Spain
Rafael Oltra, M. Teresa Alfonso, Maria Sahuquillo, Maria Rosa Miracle 213–220

Ecological structure of psammic rotifers in the ecotonal zone of Lake Piaseczno (eastern Poland)
Stanisław Radwan, Irena Bielańska-Grajner 221–228

Lake characteristics influence recovery of microplankton in arctic LTER lakes following experimental fertilization
Parke A. Rublee, Neil D. Bettez 229–232

Part V. Morphology, Taxonomy and Biogeography

Review paper
Zoogeography of the Southeast Asian Rotifera
Hendrik Segers 233–246

Rotifera from Burundi: the Lepadellidae (Rotifera: Monogononta)
Deo Baribwegure, Hendrik Segers 247–254

The rotifer fauna of peat-swamps in southern Thailand
Supenya Chittapun, Pornsilp Pholpunthin 255–259

Freshwater Rotifera from plankton of the Kerguelen Islands (Subantarctica)
Willem H. De Smet 261–272

Rotifers in saline waters from Disko Island, West Greenland
Peter Funch, Martin Vinther Sørensen 273–282

Reproductive isolation among geographically and temporally isolated marine *Brachionus* strains
T. Kotani, M. Ozaki, K. Matsuoka, T. W. Snell, A. Hagiwara 283–290

***Rhinoglena frontalis* (Rotifera, Monogononta): a scanning electron microscopic study**
Giulio Melone 291–296

The rotifer fauna of Lake Kud-Thing, a shallow lake in Nong Khai Province, northeast Thailand
La-orsri Sanoamuang, Sukonthip Savatenalinton 297–304

Biodiversity of Rotifera in some tropical floodplain lakes of the Brahmaputra river basin, Assam (N.E. India)
B. K. Sharma, Sumita Sharma 305–313

Part VI. Genetics and Evolution

Review paper
Early contributions of molecular phylogenetics to understanding the evolution of Rotifera
David B. Mark Welch 315–322

The approach to equilibrium of multilocus genotype diversity under clonal selection and cyclical parthenogenesis
Charles E. King, Justin Schonfeld 323–331

A survey of introns in three genes of rotifers
David B. Mark Welch, Matthew Meselson 333–336

Part VII. Aquaculture and Ecotoxicology

Review paper
Biotechnology and aquaculture of rotifers
Esther Lubzens, Odi Zmora, Yoav Barr 337–353

Factors affecting low temperature preservation of the marine rotifer *Brachionus rotundiformis* Tschugunoff
Mavit Assavaaree, Atsushi Hagiwara, Esther Lubzens 355–361

Effect of unionized ammonia, viscosity and protozoan contamination on reproduction and enzyme activity of the rotifer *Brachionus rotundiformis*
Adriana Belem de Araujo, Atsushi Hagiwara, Terry W. Snell 363–368

High density culture of the freshwater rotifer, *Brachionus calyciflorus*
Heum Gi Park, Kyun Woo Lee, Sung Hwoan Cho, Hyung Sun Kim, Min-Min Jung, Hyeung-Sin Kim 369–374

Acute toxicity tests on three species of the genus *Lecane* (Rotifera: Monogononta)
Ignacio Alejandro Pérez-Legaspi, Roberto Rico-Martínez 375–381

Studies on *Brachionus* (Rotifera): an example of interaction between fundamental and applied research
M. Yúfera 383–392

Index 393–395
